

## A SUCCESSFUL AND CHALLENGING YEAR

2014 brought both challenges and significant success for Saab. It was a year when the company continued to build for the future. Thanks to a long-term strategy and focus on efficiency, the company is well positioned. Defence budgets, which have declined in the United States and Western Europe during the past couple of years, are expected to increase in the coming years. Meanwhile, the turnaround is expected to be slow and does not have any short-term impact on Saab.

### Platform for future growth

In 2014, an agreement was reached with Brazil regarding development and production of 36 Gripen NG. This, together with Sweden's order for 60 Gripen in 2013, makes Saab one of few aircraft manufacturers that are developing a new generation of fighters. This has strengthened Gripen's position in the global market. The acquisition of ThyssenKrupp Marine Systems (Saab Kockums) in July gives Saab the ability to develop, produce and deliver military solutions for land, air and sea.

Saab continues to invest in research and development to ensure long-term growth. In 2014 total investments in research and development amounted to approximately 25 per cent of sales. A number of new products with significant potential were launched during the year; a new generation of the weapon system Carl-Gustaf and five new surface radars for land and sea. Additional investments were made in the development of trainers for the coming T-X procurement process in the United States.

### Strong order backlog, challenging market

At year-end, the order backlog was in line with 2013. Increased competition and prolonged decision making processes had a negative impact on order bookings in 2014, especially within the business areas Dynamics and Electronic Defence Systems. Order bookings in 2014 amounted to MSEK 22,602 (49,809). During 2013, development orders for Gripen E amounting to SEK 29.8 billion were received.

Sales amounted to MSEK 23,527 (23,750) with an organic sales decline of -3 per cent, during 2014. A lower level of activity was seen especially within Dynamics, where market conditions have been challenging in recent years. This was compensated by growth within the business area Security and Defence Solutions, partly due to the acquisition of Saab Kockums.

Reported operating income amounted to MSEK 1,659 (1,345) with an operating margin of 7.1 per cent (5.7)

### Completed efficiency measures

The efforts to constantly improve operations and make them more efficient continue. The efficiency measures announced in 2013 were completed and the target of improving efficiency by approximately MSEK 500 was reached in 2014. This has predominantly been achieved by capacity adjustments and by reducing the total number of FTE's and external consultants by approximately 950 since the beginning of 2013, excluding the acquisition of Saab Kockums and the deconsolidation of Saab Grintek Technologies (Pty) Ltd in South Africa. The efficiencies have enabled additional room for investments primarily in development and marketing activities during the year.

We had a strong operational cash flow in the fourth quarter and came close to reaching our ambition of positive cash flow for the second half of the year. The operational cash flow for 2014 however amounted to MSEK -1,197 (-639), as a result of timing differences in deliveries and milestone payments. During the fourth quarter the operational cash flow amounted to MSEK 753 (548).

Earnings per share after dilution amounted to SEK 10.78 (6.79).

The Board proposes a dividend for 2014 of SEK 4.75 (4.50) per share.

Håkan Buskhe, CEO

### OUTLOOK STATEMENT 2015:

- In 2015, we estimate sales to increase more than Saab's long-term goal: annual organic sales growth of 5 per cent.
- The operating margin 2015 excluding material non-recurring items is expected to be in line with the operating margin in 2014. In 2015, increased internally funded research and development efforts within Aeronautics will have a negative impact on the operating margin.

### Financial highlights

MSEK	Full Year 2014	Full Year 2013	Change, %	Q4 2014	Q4 2013
Order bookings	22,602	49,809	-55	12,403	24,780

1) The return on equity is measured over a rolling 12-month period.

2) As of 1 January 2014, free cash flow is reported for the Group. It was previously named operating cash flow.

Comparative numbers for 2013 have been restated according to the changed accounting principles for joint arrangements (IFRS 11). See note 13. Where applicable, comparative numbers for 2013 and for 2014 for some business areas have been restated following organisational and structural changes, see notes 14 and 15. The latter have no impact on the Group as a whole.

## Major orders, 4th quarter

	MSEK
Gripen E support and maintenance systems	5,800
Extended Gripen lease in Czech Republic	576
Development order for Gripen E	385

**Defence/Civil**  
A total of 80 per cent (87) of order bookings was attributable to defence-related operations during 2014.

**Market**  
A total of 45 per cent (30) of order bookings was related to markets outside Sweden during 2014.

**Large orders**  
Orders where the total order value exceeded MSEK 100 represented 61 per cent (80) of total order bookings during 2014.

## Orders

### Fourth quarter 2014

Major orders received during the fourth quarter of 2014 included an order from the Swedish Defence Material Administration (FMV), within the existing framework agreement related to Gripen E, concerning role equipment, along with support and maintenance equipment. The total order value amounts to approximately MSEK 5.8 billion and delivery will begin in 2016. In December, an order was received from FMV for the extended lease of Gripen from Sweden to the Czech Republic. This agreement provides for the continuing support and upgrade of the Czech aircraft for a further 12 years. FMV also ordered maintenance and technical system support and spare parts for Gripen during 2015 on behalf of the Swedish Armed Forces. Saab also received a development order regarding Gripen E from the FMV.

In October, a contract for a civil marine traffic services system was received from the Government of Hong Kong Special Administrative Region. Also, an order was received from FMV to overhaul the Swedish submarine HMS Halland. The order will be delivered during the years 2014-2016.

Saab was awarded a contract by the French Ministry of Defence procurement branch to supply the next generation shoulder-launched weapon system. The contract is a multi-stage agreement with one fixed element and eight consecutive options over the period 2015-2024. The total programme, including all options, is valued at approximately SEK 2 billion.

During the fourth quarter an agreement was reached with the Brazilian government regarding the development and production of 36 Gripen NG for the Brazilian Air Force. The initial order value amounts to approximately SEK 39.3 billion. The agreement, and the associated industrial co-operation contract, will come into effect once certain conditions have been fulfilled. These include, among others, the necessary export control-related authorisations. All of these conditions are expected to be fulfilled during the first half of 2015 and at that time Saab will book the order.

### January–December 2014

Major orders received during 2014, in addition to the above mentioned, included orders from FMV regarding the construction and production plans for the next generation submarines. This includes the mid-life update and overhaul of a total of four submarines. These orders are part of a Letter of Intent between Saab and FMV regarding the Swedish Armed Forces' underwater capability. The Letter of Intent refers to the period 2015-2024 and comprises potential orders of approximately SEK 11.2 billion.

Saab also entered into an agreement with FMV to provide advanced aerial target services to the Swedish Armed Forces. FMV also ordered support and maintenance of Gripen for the Swedish Armed Forces throughout 2014. The order comprised support and maintenance operations and ensures the continued operation of Gripen in Sweden, the Czech Republic, Hungary and Thailand.

In June an order was received for the maintenance and capital expenditure works for the electronic security system for a 300 bed Correctional Centre in Southern Queensland, Australia.

The Finnish Defence Forces ordered military training systems, including support for seven years, beginning 2014. Saab also received a contract from the Norwegian army for development and production of the new generation vehicle simulators (a training system with laser simulators).

A three-year contract for support and service of weapon simulators was signed with the United Kingdom Ministry of Defence.

Brazil ordered the RBS 70 VSHORAD (Very Short Range Air Defence System) for the army. The order included deliveries of man-portable launchers, missiles and associated equipment.

A five-year framework contract regarding the weapon system Carl-Gustaf was signed with the U.S. SOCOM (Special Operations Command). The total value of the framework contract amounts to approximately SEK 1.3 billion and in connection with the award of the contract, U.S. SOCOM issued an initial order.

For a list of major orders received during the first nine months of 2014, see note 3.

During 2014, index and price changes had a positive effect on order bookings of MSEK 346 compared to MSEK 97 during 2013.

The order backlog at the end of the period amounted to MSEK 60,128 compared to MSEK 59,870 at the beginning of the year.

### Order backlog duration:

- 2015: SEK 17.8 billion
- 2016: SEK 10.2 billion
- 2017: SEK 5.7 billion
- 2018: SEK 5.6 billion
- After 2018: SEK 20.8 billion

### Order bookings by region

MSEK	Full Year 2014	Full Year 2013	Change, %
Sweden	12,320	34,967	-65
EU excluding Sweden	4,348	4,708	-8

## Sales, MSEK

## Sales

### Fourth quarter 2014

Sales during the fourth quarter of 2014 amounted to MSEK 7,425 (7,279); an increase of 2 per cent. Acquisitions and the deconsolidation of Saab Grintek Technologies (Pty) Ltd had a positive net effect of 5 per cent on sales and currency effects had a positive effect of 2 per cent.

### January–December 2014

During 2014, sales declined 1 per cent compared to 2013. Acquisitions and the deconsolidation of Saab Grintek Technologies (Pty) Ltd had a positive effect of 2 per cent. Currency effects had no material impact on sales.

Sales in markets outside of Sweden amounted to MSEK 13,015 (13,936), or 55 per cent (59), of total sales. 79 per cent (81) of sales were related to the defence market.

### Sales per region

MSEK	Full Year 2014	Full Year 2013	Change, %
Sweden	10,512	9,814	7
EU excluding Sweden	3,770	3,933	-4

## Gross margin, %

## Operating margin, %

## Earnings per share after dilution, SEK

## Income

### Fourth quarter 2014

The gross margin during the fourth quarter amounted to 24.9 per cent (25.5). The operating income amounted to MSEK 758 (534) with an operating margin of 10.2 per cent (7.3). The amount includes a non-recurring item of MSEK 93 concerning a capital gain related to the divestment of a minority shareholding in Hawker Pacific Airservices Ltd. During the fourth quarter, an agreement for the right of use of an IT platform developed by Saab, had a positive effect on the operating income.

### January-December 2014

The gross margin during 2014 amounted to 25.8 per cent (26.6) and was less than 2013, mainly due to a changed product and project mix. Total depreciation and amortisation amounted to MSEK 872 (1,047). Depreciation of tangible fixed assets amounted to MSEK 398 (398) while depreciation of the leasing fleet amounted to MSEK 8 (25).

Total investments in research and development (R&D) amounted to MSEK 5 970 (6 543). Internally funded expenditures in R&D amounted to MSEK 1,338 (1,332), of which a total of MSEK 171 (24) was capitalised. The internally funded investments within radar and sensor technology development continued during the year, and capitalisation was at a higher level than during 2013 as orders were received in this area.

Amortisation of intangible fixed assets amounted to MSEK 466 (624), of which amortisation of capitalised development expenditures amounted to MSEK 320 (454).

The share of income in associated companies amounted to MSEK 18 (25).

The operating income amounted to MSEK 1,659 (1,345) with an operating margin of 7.1 per cent (5.7). 2013 was negatively impacted by a non-recurring item amounting to MSEK 231 as a result of a lost legal dispute. The operating income adjusted for non-recurring items amounted to MSEK 1,566 (1,576) and the operating margin was 6.7 per cent (6.6).

TKMS (Saab Kockums) was acquired in July 2014. At that time the business had a declining order backlog, low activity level and poor profitability. The takeover, and hence new business conditions, had a positive impact on the operating income of MSEK 86 in the third quarter. During the fourth quarter operations had a positive contribution to the operating income.

During 2014, reversal of risk provisions relating to Saab's leasing fleet of turbo prop aircraft (SAL), contributed positively to the operating income. The positive impact was at the same level as for 2013.

The implementation of the efficiency measures that were initiated during 2013 were finished in 2014 as the objective of efficiencies of approximately MSEK 500 were reached, mainly through capacity adjustments.

## Financial net

MSEK	Full Year 2014	Full Year 2013
Financial net related to pensions	-57	-74
Net interest items	7	23
Currency losses/gains	-5	-26
Other financial items	-81	-289
<b>Total</b>	<b>-136</b>	<b>-366</b>

The financial net related to pensions is the financial cost for net pension liabilities recognised in the balance sheet; see note 10, for more information regarding defined-benefit pension plans.

Net interest items refer to return on liquid assets and short-term investments including interest expenses on short-term and long-term interest-bearing liabilities.

Currency gains/losses reported in financial net are related to hedges of the tender portfolio, which are valued at fair value.

Other net financial items consist of costs attributable to the programme for the sale of accounts receivables, unrealised results from the market valuation of short-term investments, project interest and other currency effects, for example changes related to liquid assets in currencies other than SEK. In the second quarter 2013, a non-recurring item of MSEK 83, relating to a lost legal dispute, was reported in financial net.

In 2013, Saab invested in the Indian company Pipavav Defence and Offshore Engineering Company Limited. A combination of negative currency effects and share price development resulted in a value decline of MSEK 133 in 2013 and MSEK 19 during the first quarter of 2014, which are recognised in financial net.

## Tax

Current and deferred taxes amounted to MSEK -355 (-237), the equivalent to an effective tax rate of 23 per cent (24).

## Return on capital employed and equity

The pre-tax return on capital employed was 11.1 per cent (9.1) and the after-tax return on equity was 9.9 per cent (6.3), both measured over a rolling 12-month period.

## Financial position and liquidity

At the end of December 2014, the net liquidity amounted to MSEK -2,113; a decrease of MSEK -2,926 during 2014 compared to the year-end liquidity for 2013.

Cash flow from operating activities amounted to MSEK -713. Provisions for pensions, excluding special employers' contribution, as of 31 December 2014 amounted to MSEK 2,528, compared to MSEK 1,389 at year-end 2013, and had a negative impact of MSEK 1,139 on net liquidity. The increase in provisions was mainly due to the decrease in the discount rate used in the valuation of pension obligations from 4.00 per cent to 2.50 per cent during the period. This was partly mitigated by a strong return on plan assets and by the amendment of the inflation assumption for calculating the pension obligation from 2.00 per cent to 1.50 per cent. For more information about Saab's defined benefit plans, see note 10.

During 2014, net liquidity was negatively impacted by net investments amounting to approximately MSEK 381, by dividend to shareholders of MSEK 479 and repurchase of own shares of MSEK 252.

Currency exchange rate differences in liquid assets and unrealised results from financial investments had a positive impact on net liquidity of MSEK 43. Dividend to non-controlling interest amounted to MSEK 5.

In 2009, Saab changed its view on the application of accounting principles for development costs. As a result of this more conservative view, development costs are capitalised at a later stage in all projects and all capitalised development costs are amortised over a maximum period of ten years. Capitalised development costs have been reduced from MSEK 3,628 at the end of 2008 to MSEK 952 at the end of 2014.

Inventories increased during 2014 due to larger projects. Inventories are recognised after deducting utilised advances.

## Free cash flow, MSEK

## Capital expenditures

Gross capital expenditures in property, plant and equipment, amounted to MSEK 732 (543).

Investments in intangible assets amounted to MSEK 239 (68), of which MSEK 171 (24) was related to capitalised development costs and MSEK 68 (44) to other intangible assets.

## Cash flow

As of 2014, operational cash flow is reported by business area as opposed to previously when free cash flow was reported by business area and named operating cash flow.

Cash flow from operating activities excluding taxes and other financial items amounted to MSEK -346 (-155), see note 8.

During the second quarter of 2013, payments of MSEK 314 relating to a lost legal dispute were made.

Saab has an established programme to sell accounts receivable to strengthen its financial position and increase financial flexibility. As of 31 December 2014, net receivables of MSEK 1,071 were sold, compared to MSEK 555 as of 31 December 2013. This had a positive impact on the cash flow of MSEK 516 from operating activities during 2014.

The operational cash flow amounted to MSEK -1,197 (-639). It is defined as cash flow from operating activities, excluding taxes and other financial items, acquisitions and divestments of intangible assets, tangible assets and lease assets. The lower level of operational cash flow in 2014 compared to 2013 is mainly attributable to investments, timing differences in invoicing, milestone deliveries and payments.

Free cash flow amounted to MSEK -1,094 (-1,460). For more detailed information about the free cash flow, see note 8.

## Financial position key indicators and liquidity

MSEK	31 Dec 2014	31 Dec 2013	Change
Net liquidity / debt <sup>1)</sup>	-2,113	813	-2,926
Intangible fixed assets	6,351	6,340	11
Goodwill	5,015	4,605	410
Capitalised development costs	952	1,338	-386
Other intangible fixed assets	384	397	-13

Operational cash flow	-656	-227		-335	190
Defence/Civil (% of sales)	80/20	83/17		83/17	81/19
No. of FTE's	3,263	3,210	2		

For a description of the business area activities, see note 3.

### Orders

- Order bookings in 2014 included an order from FMV regarding role equipment in addition to support and maintenance equipment for Gripen E.
- During 2013, several orders were received concerning the Gripen E programme, of which SEK 25.4 billion was attributable to the business area during 2013.

### Sales, income and margin

- Sales attributable to Gripen C/D operations decreased slightly during 2014, which was offset by a growth in Gripen E operations.
- Increased deliveries of aircraft components to Boeing and Airbus had a positive impact on sales.
- The operating margin was positively affected by lower capitalisation of development costs in 2014 compared to 2013.

### Cash flow

- Operational cash flow was negative due to timing differences in project execution and milestone payments from customers.

#### Large orders

Orders where the total order value exceeded MSEK 100 represented 94 per cent (98) of total order bookings during 2014.

#### Market

Sales related to markets outside Sweden accounted for 27 per cent (29) during 2014.

## BUSINESS AREA DYNAMICS

MSEK	Full Year 2014	Full Year 2013	Change, %	Q4 2014	Q4 2013
Order bookings	2,325	3,345	-30	1,068	1,637
Order backlog	3,915	4,548	-14		
Sales	2,974	3,566	-17	929	1,183
EBITDA	226	428	-47	142	209
EBITDA margin, %	7.6	12.0		15.3	17.7
Operating income/loss (EBIT)	165	366	-55	127	190
Operating margin, %	5.5	10.3		13.7	16.1
Operational cash flow	-69	503		108	87
Defence/Civil (% of sales)	84/16	88/12		84/16	91/9
No. of FTE's	1,461	1,523	-4		

For a description of the business area activities, see note 3. Comparative numbers for 2013 have been restated following organisational and structural changes, see note 14.

### Orders

- Market conditions were challenging in 2014, which is reflected in low order bookings.
- During 2014, an order was received from the French Ministry of Defence procurement branch to supply the next generation of shoulder-launched weapon system. Also, an order for RBS 70 VSHORAD was received from the Brazilian army and FMV ordered design plans for a New Lightweight Torpedo (NLT).
- A five-year framework agreement regarding the weapon system Carl-Gustaf was signed with United States SOCOM (Special Operations Command).

### Sales, income and margin

- Sales decreased during 2014, compared to 2013, following low order bookings in 2013 and 2014.
- The operating margin was at a lower level during 2014 compared to 2013 due to lower sales.

### Cash flow

- Operational cash flow was negative during 2014, as a result of lower sales and timing differences in deliveries and milestone payments.

### Personnel

- The number of FTE's decreased in 2014, as a result of the efficiency measures implemented in 2013 which included downsizing, mainly at the production unit in Karlskoga, Sweden.

#### Large orders

Orders where the total order value exceeded MSEK 100 represented 23 per cent (47) of total order bookings during 2014.

#### Market

Sales related to markets outside Sweden accounted for 81 per cent (85) during 2014.

## BUSINESS AREA ELECTRONIC DEFENCE SYSTEMS

MSEK	Full Year 2014	Full Year 2013	Change, %	Q4 2014	Q4 2013
Order bookings	2,943	7,587	-61	987	2,214
Order backlog	7,619	9,171	-17		
Sales	4,629	4,560	2	1,361	1,413
EBITDA	622	373	67	202	61
EBITDA margin, %	13.4	8.2		14.8	4.3

No. of FTE's	2,550	2,588	-1		

For a description of the business area activities, see note 3. Comparative numbers for 2013 have been restated following organisational and structural changes, see note 14.

### Orders

- The market remains challenging. Order bookings for 2014 included orders for the weapon locating system Arthur, an order for advanced vehicle protection and a number of service orders within radar.
- During 2013, several orders were received concerning the Gripen E programme, of which SEK 3.2 billion was attributable to the business area during 2014.

#### Large orders

Orders where the total order value exceeded MSEK 100 represented 36 per cent (70) of total order bookings during 2014.

### Sales, income and margin

- The operating income for 2014 was strengthened as a result of the efficiency measures implemented in 2013 and 2014, lower development cost and successful project execution.

### Cash flow

- The operational cash flow was negative due to continued investments in development and tangible assets and due to timing differences in milestone payments and deliveries.

#### Market

Sales related to markets outside Sweden accounted for 71 per cent (72) during 2014.

### Personnel

- The number of FTE's decreased slightly, compared to the year-end 2013, as a result of the efficiency measures initiated in 2013.

## BUSINESS AREA SECURITY AND DEFENCE SOLUTIONS

MSEK	Full Year 2014	Full Year 2013	Change, %	Q4 2014	Q4 2013
Order bookings	6,110	4,736	29	2,210	1,807
Order backlog	6,823	5,571	22		
Sales	5,762	5,095	13	1,999	1,650
EBITDA	468	328	43	258	153
EBITDA margin, %	8.1	6.4		12.9	9.3
Operating income (EBIT)	356	213	67	222	124
Operating margin, %	6.2	4.2		11.1	7.5
Operational cash flow	157	122		482	214
Defence/Civil (% of sales)	68/32	67/33		74/26	71/29
No. of FTE's	3,234	2,843	14		

For a description of the business area activities, see note 3. Comparative numbers for 2013 have been restated following organisational and structural changes, see note 14.

### Orders

- Order bookings increased during 2014, compared to 2013, partly due to several orders for military training systems. In addition, FMV also placed orders for construction and production plans for the next generation of submarine and for conducting mid-life updates and overhaul of four submarines.

#### Large orders

Orders where the total order value exceeded MSEK 100 represented 47 per cent (35) of total order bookings during 2014.

### Sales, income and margin

- In 2014, sales increase was mainly due to the acquisition of Saab Kockums.
- The takeover of Saab Kockums and hence new business conditions had a positive impact of MSEK 86 on the operating income for the third quarter. The operations had a positive impact on the operating income also during the fourth quarter.
- Profitability increased as a result of the efficiency efforts that were initiated in 2013.

#### Market

Sales related to markets outside Sweden accounted for 73 per cent (78) during 2014.

### Cash flow

- The operational cash flow was at a high level during the fourth quarter, as a positive effect of timing differences between delivery, activity and milestone payments.

### Personnel

- The deconsolidation of Saab Grintek Technologies (Pty) Ltd as of 31 March 2014 resulted in a decrease of 265 FTE's, while the acquisition of Saab Kockums increased the number of FTE's by 855 at year-end. Excluding this, the number of FTE's was further decreased following the efficiency measures initiated in 2013.

## BUSINESS AREA SUPPORT AND SERVICES

MSEK	Full Year 2014	Full Year 2013	Change, %	Q4 2014	Q4 2013
Order bookings	4,720	4,602	3	2,635	965
Order backlog	7,976	6,683	19		
Sales	3,570	3,772	-5	1,039	1,168
EBITDA	394	517	-24	128	158
EBITDA margin, %	11.0	13.7		12.3	13.5
Operating income (EBIT)	376	498	-24	124	153
Operating margin, %	10.5	13.2		11.9	13.1
Operational cash flow	-32	-149		58	36
Defence/Civil (% of sales)	76/24	79/21		75/25	82/18
No. of FTE's	1,818	1,840	-1		

For a description of the business area activities, see note 3. Comparative numbers for 2013 have been restated following organisational and structural changes, see note 14.

### Orders

- During 2014, an order was received from FMV regarding the support and maintenance of Gripen in Sweden, the Czech Republic, Hungary and Thailand. FMV also ordered advanced aerial target services for the Swedish Armed Forces. An order was also received from DSME (Daewoo Shipbuilding & Marine Engineering Co. Ltd to design and integrate healthcare capability aboard a Norwegian support vessel.
- During 2013, an order was received concerning the Gripen E programme, of which SEK 1.3 billion was attributable to the business area.

#### Large orders

Orders where the total order value exceeded MSEK 100 represented 58 per cent (55) of total order bookings during 2014.

### Sales, income and margin

- Sales decreased slightly during 2014, compared to 2013, due to fewer large orders. Meanwhile, underlying operations were stable and sales from smaller orders were at the same level as 2013.
- The operating margin was negatively impacted by a change in product mix in 2014 compared to 2013.

#### Market

Sales related to markets outside Sweden accounted for 37 per cent (40) during 2014.

### Cash flow

- Operational cash flow was negative during 2014 due to timing differences in project execution, milestone payments and investments.

### Personnel

- The number of FTE's decreased slightly, compared to year-end 2013, as a result of the efficiency measures initiated in 2013.

## BUSINESS AREA COMBITECH

MSEK	Full Year 2014	Full Year 2013	Change, %	Q4 2014	Q4 2013
Order bookings	1,494	1,740	-14	403	531
Order backlog	387	540	-28		
Sales	1,649	1,684	-2	462	500
EBITDA	100	157	-36	36	56
EBITDA margin, %	6.1	9.3		7.8	11.2
Operating income (EBIT)	92	148	-38	34	54
Operating margin, %	5.6	8.8		7.4	10.8
Operational cash flow	76	162		44	20
Defence/Civil (% of sales)	56/44	59/41		56/44	58/42
No. of FTE's	1,405	1,345	4		

For a description of the business area activities, see note 3. Comparative numbers for 2013 have been restated following organisational and structural changes, see note 14.

### Orders and sales

- Orders bookings decreased and sales decreased slightly in 2014 compared to 2013, following a challenging market situation and hence a lower utilization rate.

### Income and margin

- The operating margin was at a lower level in 2014, compared to the same period in 2013, mainly due to the challenging market situation.

#### Market

Sales related to markets outside Sweden accounted for 8 per cent (8) during 2014.

### Cash flow

- The operational cash flow was at a lower level in 2014, compared to 2013, mainly due to decreased income.

## Owners

According to SIS Ägarservice, Saab's largest shareholders as of 30 December 2014 were:

Investor AB  
Wallenberg foundations  
Swedbank Robur funds  
AFA Insurance  
Unionen  
SHB funds  
Nordea funds  
Odey funds  
Första AP-fonden  
SEB funds

## Personnel

	31 Dec 2014	1 Jan 2014
Number of employees	14,716	14,140
FTE's	14,561	14,122

As of 31 December 2014, the Group had 14,716 employees, compared to 14,140 at the beginning of 2014. The number of full time equivalents (FTE's) at the end of 2014 was 14,561 compared to 14,122 at the beginning of the year. The acquisition of Saab Kockums increased the number of FTE's by 855. The deconsolidation of operations in the South African subsidiary Saab Grintek Technologies (Pty) Ltd reduced the number of FTE's by 265.

## Corporate

Corporate reported an operating income of MSEK -15 (-221) in 2014.

During 2014, the reversal of risk provisions, attributable to the remaining risks related to Saab's lease fleet of turboprop aircraft, contributed positively to the operating income. The positive effect was at the same level as in 2013.

In 2014, the owned share of the portfolio was divested and the part held via operating leases has been reduced. As of 31 December 2014, Saab has a lease portfolio of 6 (49) aircraft, consisting of an owned share of 0 (14) and a leased share of 6 (35). The agreements for the leased aircraft expired in January and the lease portfolio will be discontinued during 2015.

In October, Saab divested its holding in Hawker Pacific Airservices Ltd., which resulted in a capital gain amounting to MSEK 93. During the year, the divestment of a Group company, whose assets were mainly related to property, had a positive impact on the operating income.

During the second quarter of 2013, a payment of MSEK 314 was made relating to a lost legal dispute was made. MSEK 231 of the payment was reported in operating income and MSEK 83 related to interest cost in financial net.

## Acquisitions and divestments 2014

During the first quarter, Saab's subsidiary Saab South Africa (Pty) Ltd deconsolidated its stake in the South African subsidiary Saab Grintek Technologies (Pty) Ltd. The deconsolidation of the operations resulted in a capital gain before taxes of MZAR 20 (approx. MSEK 12), which was reported in the business area Security and Defence Solutions. See Saab's interim report for January-March 2014 for further information.

In July, Saab finalized the acquisition of the Swedish shipyard ThyssenKrupp Marine Systems AB (TKMS, now Saab Kockums). The purchase price amounted to MSEK 340 and existing funds were used to finance the acquisition. Saab Kockums designs, builds and maintains naval systems such as submarines and surface vessels. The company had, at the time of the acquisition, approximately 850 employees. The acquisition is in line with Saab's ambition to increase its capabilities in the naval domain. This move further strengthens Saab's status as a comprehensive supplier of military systems. For more information about the acquisition, see note 9.

In October, Saab divested its minority shareholding in Hawker Pacific Airservices Ltd., which resulted in a capital gain amounting to MSEK 93.

No other significant acquisitions or divestments were made during 2014.

## Share repurchase

Saab held 3,650,364 treasury shares as of 31 December 2014, compared to 2,736,200 at year-end 2013. The Annual General Meeting on 8 April 2014 authorised the Board of Directors to repurchase up to 10 per cent of Saab's shares to hedge the Share Matching Plan and Performance Share Plan. On 5 June 2014, the Board of Directors decided to use the authorisation and 1,340,000 shares were purchased during the third quarter of 2014 at a total cost of MSEK 252.

## Risks and uncertainties

Saab's operations primarily involve the development, production and supply of technologically advanced hardware and software to customers around the world.

Projects generally entail significant investments, long periods of time and technological development or refinement of the product. In addition to customer and supplier relations, international operations involve joint ventures and collaborations with other industries in addition to the establishment of operations abroad.

Operations can entail various degrees of risk. The key risk areas are political, operational and financial. Various policies and instructions govern the management of significant risks. Saab conducts significant development projects and manages the associated risks.

For a general description of the risk areas, see pages 51-54 of the Annual Report 2013.

## Proposed dividend

The Board of Directors proposes a dividend to shareholders of 4.75 per share (4.50), or a total of MSEK 501 (479). This has been calculated based on the number of outstanding shares as of 31 December 2014 amounting to 105,499,980 (106,414,144). 17 April 2015 has been proposed as the record day for the dividend, which is expected to be paid on 22 April 2015.

## Nomination committee

The members of the nomination committee have been appointed based on the shareholder structure 31 August 2014 in accordance with a resolution by the Saab Annual General Meeting. Members of the Saab Nomination Committee for the Annual General Meeting 2015 are: Marcus Wallenberg, Chairman of the Board of Saab AB, Petra Hedengran, Investor AB, Peter Wallenberg Jr, Knut and Alice Wallenberg's Foundation, Tomas Hedberg, Swedbank Robur Funds, and Anders Algotsson, AFA Insurance.

The Nomination Committee is assigned to prepare proposals regarding the Chairman of the Annual General Meeting, Board of Directors, Chairman of the Board, Auditor and remuneration to the Board and the Auditor.

The Annual General Meeting of Saab AB will be held on Wednesday, 15 April, 2015.

### Gripen for Brazil

During the fourth quarter an agreement was reached with the Brazilian government regarding development and production of 36 Gripen NG for the Brazilian Air Force. The total order value amounts to approximately SEK 39.3 billion. The agreement will come into effect once certain conditions have been fulfilled, which is expected during the first half-year 2015 and then Saab will book the order.

### Other significant events January–December 2014

- On 8 April 2014, Saab held its Annual General Meeting of shareholders in Stockholm, Sweden. In accordance with the nomination committee's proposal Håkan Buskhe, Johan Forssell, Sten Jakobsson, Sara Mazur, Per-Arne Sandström, Cecilia Stegö Chilò, Lena Treschow Torell, Marcus Wallenberg, and Joakim Westh were re-elected to the Board of Directors. Marcus Wallenberg was re-elected Chairman of the Board. At the statutory Board meeting following the Annual General Meeting, Sten Jakobsson was re-elected Vice Chairman of the Board.
- The Swiss people voted no to the proposed financing of the Gripen procurement in a referendum held in May.
- In June, Saab announced that the Board of Directors made the decision to repurchase own shares of series B in order to ensure delivery of shares to participants in Saab's long-term Share Matching Plan and Performance Share Plan.
- During 2014, Saab issued bonds of SEK 1 billion with maturity on 19 December 2019 under the existing Medium Term Note programme.
- In July, Saab and the European Defence Agency (EDA) signed a framework agreement for potential orders of Carl-Gustaf ammunition to Estonia, Latvia, Lithuania, the Czech Republic and Poland. It is a five-year framework agreement with a possible renewal of two more years. The framework agreement includes potential orders of approximately MSEK 460.
- Saab and Embraer announced in July the signing of a Memorandum of Understanding to partner in joint programme management for the F-X2 Project, pursuant to the selection of the Gripen NG as Brazil's next generation fighter jet. Under this agreement, Embraer will perform a leading role in the overall programme performance as well as undertake an extensive share of work in the production and delivery of both the single and two-seat versions of the Gripen NG aircraft for the Brazilian Air Force.
- On 22 July, Saab announced the closing of the acquisition of the Swedish shipyard ThyssenKrupp Marine Systems. The acquisition further strengthens Saab's status as a comprehensive supplier of military systems. The company became a business unit within Saab's business area Security and Defence Solutions and named Saab Kockums. Operations are conducted mainly in Malmö, Karlskrona and Muskö, Sweden. For more information about the acquisition, see note 9.
- Saab announced changes to its business area structure to further develop and strengthen the organisation. At the same time changes are being made within the Group Management. All changes are effective as of 1 January 2015.
- A contract for civil marine traffic services system in Hong Kong was received from the Government of Hong Kong Special Administrative Region. The order value is MSEK 360.
- An order was received from FMV, within the existing framework agreement related to Gripen E, regarding role equipment, along with support and maintenance equipment. The total order value amounts to approximately MSEK 5.8 billion and delivery will begin in 2016.

For information regarding large orders received between January and September 2014, see page 2 and the comments regarding Business Areas on pages 5 to 7 and also note 3.

### Significant events after the conclusion of the period

- In January, Saab signed a revolving credit facility of SEK 4 billion with an initial term of five years and with a possibility to extend the term with one plus one year. This is done in order to refinance the existing facility with maturity 2016 and to be used for general corporate purposes.
- Saab announced it has teamed up with Dutch shipbuilder Damen Shipyards Group to explore future opportunities in the international submarine market.

## ABOUT SAAB

Saab serves the global market with world-leading products, services and solutions ranging from military defence to civil security. Saab has operations and employees on all continents and constantly develops, adopts and improves new technology to meet customers' changing needs.

### Short facts

- Saab's series B share is listed on NASDAQ OMX Stockholm Large Cap. Ticker: SAAB B.
- Saab has 14,700 employees
- Local presence in 33 countries
- Customers in more than 100 countries

### Vision

It is a human right to feel safe.

### Mission

To make people safe by pushing intellectual and technological boundaries.

### Business concept

Saab constantly develops, adopts and improves new technology to meet changing customer needs. Saab serves the global market of governments, authorities and corporations with products, services and solutions for defence, aviation and civil security.

## ORGANISATION

Saab's operations are divided into six business areas for control and reporting purposes: Aeronautics, Dynamics, Electronic Defence Systems, Security and Defence Solutions, Support and Services and the independent business area Combitech. As of 1 January 2015, Combitech is included in the new business area Industrial Products and Services. In addition, Corporate comprises Group staff and departments as well as secondary operations such as Saab Aircraft Leasing.

To ensure presence in local key markets, Saab also has six market areas: Nordic & Baltic, Europe & Greater Middle East, Americas, India, Sub-Saharan Africa and Asia Pacific.

## REVENUE MODEL

Saab's earnings are primarily generated by long-term customer contracts, service assignments and sale of goods. Margins vary depending on the nature of the project.

Long-term customer contracts entail the development and manufacture of complex systems. These account for nearly 60 per cent of sales. Long-term contracts are continually recognised in revenue, meaning that income and expenses are recognised as the project is completed. Cash flows for these contracts depend on the timing of advance payments and milestone payments during the order and execution period.

Service assignments, which account for around 25 per cent of Saab's sales, are comprised of consulting and support services. Examples include training and ongoing maintenance associated with previous deliveries. The third part of Saab's sales model is the sale of products and spare parts that Saab manufactures and stocks or purchases on behalf of customers.

## SAAB'S STRATEGY

Saab's strategy is built on four priority areas. Our aim is to create long-term value by accomplishing these strategic priorities.

Saab shall also maintain a solid balance sheet, focus on capital efficiency and generate strong cash flow.

### Profitable growth

Local presence on prioritised markets enables us to strengthen the relationship with our customers. We focus on markets where we have a strong market position and on product areas with good growth opportunities.

### Performance

We have a long tradition of integrating high-tech systems and we reconsider and develop our tools, methods, and work procedures continuously. This enables us to offer high performance and cost efficient solutions.

### Portfolio

The portfolio is focused on areas with significant competitive advantages and growth potential. Investments are made in product innovation, development of prioritised products and system integration expertise. Acquisition of businesses shall strengthen key areas and add to our local presence.

### People

Saab shall be an employer of choice in the global market. We are focusing on securing and developing the right skills for current and future needs. Motivated, driven and high performing employees are the backbone of our offering, efficiency and growth.

## FINANCIAL TARGETS

### Sales

The organic sales growth should average 5 per cent annually over a business cycle.

### Operating margin

The operating margin (EBIT) should be at least 10 per cent per year – the target is formulated as an average over a business cycle.

### Equity/assets ratio

The equity/assets ratio should be over 30 per cent.

### Dividend

The long-term dividend objective is to distribute 20–40 per cent of net income to shareholders over a business cycle.

# CONSOLIDATED INCOME STATEMENT

3) Average number of shares after dilution.		106,916,255	109,150,344	106,239,161	109,150,344

2013 has been restated according to the changed accounting principles for joint arrangements (IFRS 11).

As of 2014, the dilution of number of shares is calculated based on the effects of all potential shares (Share Matching Plan and Performance Share Plan) that give rise to a dilution effect. Previously, a simplified method was used where the dilution effect was calculated based on all treasury shares.

## Parent company

### Sales and income

The Parent Company includes units within the business areas Aeronautics, Electronic Defence Systems, Security and Defence Solutions, and Support and Services. Group staff and Group support are included as well. The business areas Dynamics and Combitech are subsidiaries to Saab AB and are not a part of the Parent Company.

The Parent Company's sales in 2014 amounted to MSEK 16,175 (16,521). Operating income was MSEK 1,200 (662).

Net financial income and expenses was MSEK 706 (707). After appropriations of MSEK -419 (-284) and taxes of MSEK -317 (-200), net income for the year amounted to MSEK 1,170 (885).

### Liquidity, financing, capital expenditures and number of employees

The Parent Company's net debt amounted to MSEK 2,577 at 31 December 2014 compared to MSEK 984 at 31 December 2013.

Gross capital expenditures in property, plant and equipment amounted to MSEK 551 (387). Investments in intangible assets amounted to MSEK 63 (63). At the end of the year, the Parent Company had 8,695 employees, compared to 8,781 at the beginning of the year.

A major part of the Group's operations are included in the Parent Company. Separate notes to the Parent Company's financial statements and a separate description of risks and uncertainties for the Parent Company have therefore not been included in this year-end report.

# NOTES TO THE FINANCIAL STATEMENTS

## NOTE 1 Corporate information

Saab AB (publ.), corporate identity no. 556036-0793, with registered office in Linköping, Sweden. The company's head office is located at Gustavslundsvägen 42, Bromma, with the mailing address P.O. Box 12062, SE-102 22 Stockholm, Sweden, and the telephone number +46-8-463 00 00. Saab is listed on NASDAQ OMX Stockholm since 1998 and on the large cap list as of October 2006. The company's operations, including subsidiaries and associated companies, are described in the annual report 2013.

## NOTE 2 Accounting principles

The consolidated accounts for 2014 are prepared according to IAS 34 Interim Financial Reporting and the Annual Accounts Act. The Parent Company's accounts have been prepared according to the Annual Accounts Act and the Swedish Financial Reporting Board's recommendation RFR 2, Reporting by Legal Entities. The Group's accounting principles are described on pages 70-77 in the annual report 2013.

The Group and the Parent Company apply the same accounting principles and methods of computation as described in the annual report 2013 except for joint venture accounting (see note 13 for further information).

The year-end report is abbreviated and does not contain all the information and disclosures available in the annual report and as such should be read together with the annual report 2013.

## NOTE 3 Segment reporting

Saab is a leading high-technology company, with its main operations in defence, aviation and civil security. Operations are primarily focused on well-defined areas in defence electronics and missile systems as well as military and commercial aviation. Saab is also active in technical services and maintenance. Saab has a strong position in Sweden and the main part of sales is generated in Europe. In addition Saab has a local presence in South Africa, Australia, the US and other selected countries globally. Saab's operating and management structure is divided into six business areas which also represent operating segments; Aeronautics, Dynamics, Electronic Defence Systems, Security and Defence Solutions, Support and Services, and the independent business area Combitech. Comparative numbers for 2013 have been adjusted due to a new structure, see note 14 for more information. Comparative numbers for 2014, adjusted for the new organisational structure implemented as of 1 January 2015 can be found in note 15.

### Aeronautics

Aeronautics engages in advanced development of military and civil aviation technology. The product portfolio includes the Gripen fighter and Unmanned Aerial Systems (UAS). Aeronautics also manufactures aircraft components for Saab's own aircraft as well as for passenger aircraft produced by others.

### Dynamics

Dynamics offers a highly competitive product range comprising ground combat weapons, missile systems, torpedoes, unmanned underwater vehicles and signature management systems for armed forces as well as niche products for the civil and the defence market, such as unmanned underwater vehicles for the off-shore industry.

### Electronic Defence Systems

These operations are based on Saab's close interaction with customers requiring efficient solutions for surveillance and for threat detection, location and protection. This has created a unique competence in the area of radar and electronic warfare, and a product portfolio covering airborne, land-based and naval radar, electronic support measures and self-protection systems. Moreover, avionics for increased flight mission efficiency and flight safety is supplied to civil and military customers.

### Security and Defence Solutions

The operations comprise combat management systems for the navy, air force and army, and also design, construction and maintenance of submarines. The portfolio in addition includes systems for training and simulation, security systems, solutions for secure communication as well as systems for maritime and air traffic management.

### Support and Services

Support and Services offers reliable, cost-efficient service and support for all of Saab's markets. This primarily includes integrated support solutions, technical maintenance and logistics, and products, solutions and services for military and civil missions in locations with limited infrastructure.

### Combitech

Combitech, an independent company within the Saab Group, is one of Sweden's largest technology consulting firms. Combitech combines technological excellence with deep industry knowledge, comprehensive understanding and a particular focus on environment and security.

## Information on large customers

In 2014, Saab had one customer that accounted for 10 per cent or more of the Group's sales: the Swedish Defence Materiel Administration (FMV). FMV is a customer of all business areas, and total sales amounted to MSEK 8,086 (7,814).

## Seasonal variation

A major part of Saab's business is related to large projects where the revenue is recognised by using the percentage of completion method. The costs incurred in these projects are normally lower during the third quarter compared to the other quarters. The fourth quarter is also usually affected by a higher number of deliveries, mainly within Dynamics.

## NOTE 3 Continued

## Operating income per business area

\* Derivatives with positive values are recognised as assets and derivatives with negative values are recognised as liabilities. Derivatives with a legal right of offset amount to MSEK 415.

## Valuation methods for financial assets and liabilities

The fair value of listed financial assets is determined using market prices. Saab also applies various valuation methods to determine the fair value of financial assets that are traded on an inactive market or are unlisted holdings. These valuation methods are based on the valuation of similar instruments, discounted cash flows or customary valuation methods such as Black-Scholes.

The following instruments were valued at fair value according to listed (unadjusted) prices on an active market on the closing date (Level 1):

- Bonds and interest-bearing securities
- Electricity derivatives
- Shares and participations

The following instruments were valued at fair value according to accepted valuation models based on observable market data (Level 2):

- Forward exchange contracts: Future payment flows in each currency are discounted by current market rates to the valuation day and valued to SEK at period-end exchange rates.
- Options: The Black-Scholes option pricing model is used in the market valuation of all options.
- Interest rate swaps: Future variable interest rates are calculated with the help of current forward rates. These implicit interest payments are discounted to the valuation date using current market rates. The market value of interest rate swaps is obtained by contrasting the discounted variable interest payments with the discounted present value of fixed interest payments.

Unlisted shares and participations: Valued according to accepted principles; e.g. for venture capital firms (Level 3).

## NOTE 7 Continued

There has been no change between levels in 2014. As of 31 December 2014, the Group had the following financial assets and liabilities at fair value:

## Assets at fair value

MSEK	31 Dec 2014	Level 1	Level 2	Level 3

## NOTE 9 Business combinations

On June 29, Saab announced an agreement to acquire 100 per cent of TKMS (now Saab Kockums), which designs, builds and maintains military naval systems such as submarines and surface vessels. TKMS had approximately 850 employees at the time of the acquisition. The acquisition was closed on 22 July at a purchase price MSEK 340.

The acquisition is in line with Saab's ambition to increase its capabilities in the naval domain, and further strengthens Saab's status as a comprehensive supplier of military systems. Saab Kockums has a unique offering and strong presence in Sweden concerning submarines and warships. Saab also sees potential to expand Saab Kockums' current market position through opportunities in the export market.

Current assets	407
Liquid assets	540
<b>Total assets</b>	<b>1,438</b>
Provision for pensions	186
Other provisions	601
Other liabilities	529
<b>Total liabilities</b>	<b>1,316</b>
Total identifiable net assets at fair value	122
Goodwill	218
<b>Purchase consideration</b>	<b>340</b>

Goodwill related to the acquisition amounts to MSEK 218, and comprises the value of the workforce and expected synergy effects achieved by merging Saab Group's and Saab Kockums' operations. No part of acquired goodwill is expected to be deductible for income tax purposes.

As of the acquisition date, Saab Kockums has contributed MSEK 612 to Group sales and MSEK 138 to income before tax. Saab Kockums' total sales for the period 1 January to 31 December 2014 amounts to MSEK 1,248 and income before tax to MSEK 88.

Transaction costs of MSEK 5 have been expensed and are included in administrative expenses. These costs are included in cash flow from operating activities in the statement of cash flows.

No other significant acquisitions were made or announced during 2014.

## NOTE 10 Defined-benefit plans

Saab has defined-benefit pension plans where post-employment compensation is based on a percentage of the recipient's salary. According to IAS 19, the estimated value of the defined-benefit obligation amounted to MSEK 8,153 at 31 December 2014 compared to MSEK 6,413 at 31 December 2013 and the value of the plan assets amounted to MSEK 5,625 at 31 December 2014 compared to MSEK 5,024 at 31 December 2013. Provisions for pensions attributable to special employers' contribution amounted to MSEK 562 at 31 December 2014 and to MSEK 255 at 31 December 2013. Total provisions for pensions amount to MSEK 3,090, of which MSEK 59 is reported as long-term receivables.

## NOTE 11 Contingent liabilities

No additional significant commitments have arisen during the period. With regard to the Group's performance guarantees for commitments to customers, the likelihood of an outflow of resources is estimated as remote and, as a result, no value is recognised.

## NOTE 12 Transactions with related parties

Saab has signed an agreement about the sale of Saab Grintek Technologies Ltd. The transaction involves related parties to the company and has been carried through on commercial bases.

No other significant transactions have occurred during the period. Related parties with which the Group has transactions are described in the annual report 2013, note 43.

## NOTE 13 Effects of amended accounting principles regarding joint ventures

The Group has a 50 per cent holding in the joint venture Gripen International KB. Group holdings were reported using the proportional method through 2013; however, application of IFRS 11, Joint Arrangements, requires that holdings be reported using the equity method as of 2014. The Group's remaining holdings in joint ventures are of an insignificant amount.

Effects of application of IFRS 11 on shares in joint ventures at the end of 2013 are reported in accordance with the equity method as shown below. The change has not had a significant effect on the Group's income statement. For information about the other quarters and the opening balance 2013, please see the annual report 2013, note 22.

### Year-end 2013

## NOTE 14 Restated accounting 2013 regarding new structure

Saab has implemented a new structure where the operations within Security and Defence Solutions which were related to Airborne Surveillance have been moved to corresponding operations within either Electronic Defence Systems or Support and Services. The reorganisation was carried through as of 1 January 2014. Additionally, a development project in Dynamics was moved to Corporate and a part of Security Defence Solutions' operations in Finland was moved to Combitech as of 1 January 2014.

## NOTE 15 Restated accounting 2014 regarding new structure

Saab has implemented changes to the business area structure as of 1 January 2015. In order to create a stronger and more coherent platform for business-to-business focused business units the new business area Industrial Products and Services was formed. Industrial Products and Services will include the business units Aerostructures (previously in business area Aeronautics), Avionics (previously in business area Electronic Defence Systems), the independent technology consulting firm Combitech, Saab ventures' product portfolio (previously in Saab Corporate) and a development project, which up until year-end 2014 was a part of Saab Corporate.

## Capital employed

Total capital less non-interest-bearing liabilities.

## Earnings per share

Net income for the period attributable to Parent Company shareholders' interest, divided by the average number of shares before and after full dilution. There is no dilution impact if the result is negative.

## EBITDA

Operating income before depreciation/amortisation and write-downs less depreciation/amortisation and write-downs of lease aircraft.

## EBITDA margin

Operating income before depreciation/amortisation and write-downs less depreciation/amortisation and write-downs of lease aircraft as a percentage of sales revenue.

## Equity/assets ratio

Equity in relation to total assets.

## Equity per share

Equity attributable to the Parent Company's shareholders divided by the number of shares, excluding treasury shares, at the end of the period.

## Gross margin

Gross income as a percentage of sales revenue.

## Net liquidity/net debt

Liquid assets, short-term investments and interest-bearing receivables less interest-bearing liabilities and provisions for pensions excluding provisions for pensions attributable to special employers' contribution.

## Free cash flow per share

Free cash flow divided by the average number of shares after dilution.

## Operating margin

Operating income (EBIT) as a percentage of sales revenue.

## Return on capital employed

Operating income plus financial income as a percentage of average capital employed (measured over a rolling 12-month period).

## Return on equity

Net income for the period as a percentage of average equity (measured over a rolling 12-month period).
