

Public Security Exhibition British Ambassador's Residence

Protection of Critical National Infrastructure (CNI) is becoming more important for society. The UK is on the forefront of this topic and UK companies are delivering bespoke as well as unique products and services. A trade delegation of approximately 20 companies, within the security sectors, will accompany ADS (the British trade association for UK Aerospace, Defence, Security and Space industries) to Sweden in October to meet with industry specialist like yourselves.

UK Trade & Investment and ADS, in association with SOFF and MSB, would like to invite you to a Public Security Exhibition at the British Ambassador's Residence. This exhibition focuses on innovative UK companies delivering products and services for the protection of Critical National Infrastructure. Companies participating operate within cyber security, surveillance technology, data software, communication tools plus more traditional deterrent-like products. Please come and meet UK companies, industry specialists and relevant stakeholders from the industry at one of Stockholm's most unique locations.

More detail about the UK trade delegates can be found below.

The exhibition is open between 09.30 and 15.30 on 8 October 2015. Places are limited (and for security reasons) so please RSVP your interest via email, to Andrew Wynyard at UKTI.

We look forward to seeing you there.

Program

09:30 Opening of exhibition with short presentations

15:30 Exhibition ends

When:

Thursday, 8th of October 2015
