

Nordic Shelter is a global provider of mobile integrated systems based on specialized containers and shelters for military and industrial applications - from our own design and construction.

The company is headquartered in Norway, was founded in 2007 and established the factory in Tallinn, Estonia in 2011. We are also represented with a branch in Gothenburg, Sweden.

Nordic Shelter Quality system is compliant with ISO 9001:2015 and environmental system compliant with ISO 14001:2004.

Manufacturing is done in new production facilities in Tallinn with 2400m² of production area with offices and a paint shop for 20-foot containers in addition. We cover all production steps in-house and have all necessary certificates for welding both steel and aluminium. For larger quantities we source parts of the work to trusted local partners who are compliant with our high standards.

Nordic Shelter also manufactures sandwich panels for our shelters and container by ourselves, enabling us to meet the toughest climate requirements.

Some of our container and shelter variants are

- Command Post
- Ammunition freight and storage
- Mobile field Kitchen
- Laundry containers with washers and dryers
- Sanitary (Shower, WC, Sauna)
- Medical units
- Classroom / briefing room
- Drone shelter (transport, workshop and control)
- Workshop with cranes and machinery
- Storage
- Office
- Accommodation
