SWEDISH NET AIR & DEFENCE

INTRODUCTION

C O M P A N Y

BRIEF FACTS :

- Swedish Net Air & Defence offers matériel and contracts for airports, defense and other high security facilities.
- Founded in 1998.
- Office in Stockholm and Hallsberg.
- Historically, our customers have mainly been airports, defense and nuclear power plants.
- For 20 years, we have delivered advanced projects for airports, nuclear power plants, data centers, penal institutions, defense related projects, embassies and other national security projects.

SWEDISH NET AIR & DEFENCE' BUSINESS AREAS

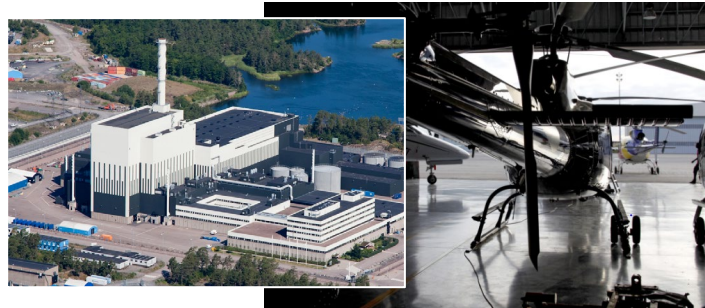

MATERIEL SUPPLIES

We deliver matériel/equipment and services together with technical documentation, system security analysis and project management.

➤ **15 projects** delivered to the Swedish Defense (FMV and FM)

Example projects:

- Framework agreement (FA) Container tents
- FA Explosive Ordnance Disposal (EOD) and demining.
- 10-years FA for Service & Maintenance of Mobile Satellite Communication Systems

TURNKEY CONTRACTS

Advanced groundworks, construction and installation turnkey contracts for specially protected objects, often with design responsibility.

> **20 delivered projects**

Example projects:

- Logistics building for defense related operations
- Turnkey contract at Ronneby Helicopter hangar for FMV
- Checkpoints at Oskarshamn Nuclear Power Plant
- Vehicle control at Forsmark Nuclear Power Plant

AIRPORTS

We design, build and install turnkey solutions for Airside. These can include:

- Airport Ground Lighting (AGL)
- Instrument landing systems (ILS)
- Air Traffic Control (ATC)
- Weather stations (AWOS)
- Power supply with back-up power and uninterruptible power.

25 delivered airport projects since 2012 (11 to military airports)

Example customers: Scandinavian Mountains Airport, The Swedish Defence Materiel Administration (FMV), Sweden, Åre Östersund Airport, Lapland Airport, Kalmar Airport
