

Estonian Defence and Aerospace Industry Association

Event: Visit of the Swedish defence delegation to Estonia

Location:

- 6 October – Fotografiska (Evening reception)
- 7 October – Tallinn, Ülemiste Öpiku Conference Centre

Date: 6–7 October 2025

| Nr | Company name | Participant | Company info |
|----|--------------------------------|---|---|
| 1 | Lindante | Tarmo Kattago tarmo@lindante.ee 06.-07.10. | Specialise in the development and production of special purpose covers and bags, i.e. electro-magnetic or heat shielding covers and bags, and they also manufacture and repair other military covers for defence vehicles and heavy weapons. |
| 2 | Hallberg Mechanics Tartu AS | Marko Siitas marko.siitas@hsfgroup.com 06.-07.10.2025 | They offer subcontracting services in the fields of milling, turning, assembly and sheet metal processing. HSF Group is a group of contract manufacturers specialising in mechanical production and assembly. They specialise in machining, sheet metal processing and system assembly. |
| 3 | XW Production | Jürgen Visnapuu jurgen@xwproduction.com 06.-07.10.2025 | XW Production designs and builds all sorts of things according to customer's request: from ideas and sketches on a napkin to the finished products. |
| 4 | 5.0Robotics | Taavi Laur taavi@50robotics.com 06-07.10.2025 | 5.0 ROBOTICS is an Estonian deep-tech startup that provides robotic automation solutions for all, combined with advanced AI and a rapid focus on R&D. Our technology enables the On-Demand production of digitized parts right at the Frontline. They regionalize |

| | | | |
|---|--------------------------------|--|---|
| | | | production, ensuring lightweight, adaptable, and affordable manufacturing systems. |
| 5 | Frankenburg Technologies | Tuuli Vors tuuli.vors@frankenburg.tech 06-07.10.2025 | They are developing and commercialising a low-cost counter-UAV missile, which will use a combination of sensors and machine learning models to acquire, identify and engage targets with minimal human input. |
| 6 | AGES Case (AGES Partner OÜ) | Timo Mäe timo@agescase.ee 06.-07.10.25 | AGES CASE offers the design and manufacture of transport cases / boxes for equipment that requires secure protection. Their cases and boxes are designed for long-term use and are intended for use in very harsh environments. |
| 7 | MARU Defence (MDSC Systems OÜ) | Tanel Rõõm, tanel.room@maru.ee , 07.10.2025 | Specialises in the design and manufacture of container solutions for military, rescue and industrial applications. |
| 8 | Vegvisir (Defensphere OÜ) | Siim Saliste, siim.saliste@vegvisir.ee 06-07.10.2025 | Vegvisir is developing a mixed-reality situational awareness solution that allows, for example, an armoured vehicle driver with virtual reality glasses to see 360 degrees through the metal body of an armoured vehicle. |
| 9 | Advokaadibüroo Trinititi OÜ | Ain Kalme Ain.Kalme@trinititi.ee 06.-07.10.2025 | Future-thinking and inter- nationally recognized Baltic legal advisory team with over 100 professionals who are ready to drive our clients to success by crafting the future on their terms. |

| | | | |
|----|--|--|---|
| 10 | PowerUP Technologies (PowerUp Fuel Cells OÜ) | Timo Nieminen timo.nieminen@powerup-tech.com 06.-07.10.2025 | PowerUP Fuel Cells OÜ creates unique hydrogen fuel cell electric generators and backup power solutions. PowerUP's mobile, silent and minimal heat footprint products have been tested by both the Estonian Defence Forces and the NATO Energy Security Centre |
| 11 | CAFA Tech | Tanel Järvet tanel.jarvet@cafatech.com | CAFA Tech is Estonian robotics company which develops: Off-the-grid 24/7 Charging Stations for robots and drones. Mobile robot CAFA Worker for autonomous or tele-operated outdoor tasks Cellular drones that are controlled via 5G mobile communication at a distance of up to 100 km |
| 12 | Nortal AS | Aron Haljaste, aron.haljaste@nortal.com 06-07.10.2025 | Nortal is a global digital transformation powerhouse with strong capabilities and references in cyber security and defense industry. The company's clients include central government departments, military agencies and intelligence services. |
| 13 | Towerhouse OÜ | Kristian Lavin Kristian@towerhouse.ee 06-07.10.2025 | Towerhouse OÜ is a software development company whose main product is the air traffic control simulator "Flight Level." The system can also be used for military purposes, such as the training of air force forward air controllers. |
| 14 | Baltic Consulting Team | Janar Sutt janar.sutt@balticconsultingteam.com 06.10.2025 | At Baltic Consulting Team, we evaluate organizations evolve to stay relevant and competitive in a changing environment, showcasing those that thrive in these aspects. Our team collects, tracks, and analyzes market |

| | | | |
|----|-----------------------|--|---|
| | | | data, offering insights to help you understand the results effectively. |
| 15 | Policopter OÜ | Ilmo Maaros ilmo@policopter.eu 06-07.10.2025 | Precision farming solutions leveraging advanced helicopter and drone technology, enabling efficient seed sowing, real-time crop monitoring, precise fertilization, and pest control. Our P-1 UAV, with its 500kg-1 ton payload capacity, supports large-scale operations, improving yield and sustainability across diverse terrains. |
| 16 | Dremester OÜ | Pilleriin Laanemets pilleriin@dremester.com 06.-07.10.2025 | Dremester is a business development partner of AP Sensing GmbH , providing advanced critical infrastructure monitoring solutions for subsea and border surveillance. |
| 17 | FORECR OÜ | Mehmet Fatih KARAGOZ fatih@forecr.io 06.-07.10.2025 | FORECR, we specialize in delivering advanced industrial computing solutions designed to meet the rigorous demands of modern industries. As a partner of NVIDIA, we leverage cutting-edge technology to develop high-performance computing platforms and AI systems that enhance productivity, efficiency, and innovation. |
| 18 | Defsecintel Solutions | Getter Oper getter.oper@defsecintel.com 06.-07.10.2025 | DefSecIntel provides integrated autonomous situation awareness by turn-key systems including fully automated surveillance platforms and remote autonomous monitoring stations and systems equipped with AI-assisted technologies. |
| 19 | Luksusjaht AS | Artur Alpstål artur.alpstal@luksusjaht.ee 06-07.10.2025 | AS Luksusjaht is motorboats and sailboats production company, located in Kuressaare, Estonia. All the boats in our factory are built by experienced shipbuilders and carpenters. |

| | | | |
|----|----------------|---|---|
| 20 | UForce Estonia | Jaak Ennuste j.ennuste@uforce.global 06.10.2025 | The company exports Ukraine's expertise in asymmetric warfare to Western countries and sells C2 software, Nemesis night bomber drones, and Magura naval drones. |
| 21 | Threod Systems | Vahur Väljamäe vahur.valjamae@threod.com 06-07.10.2025 | Threod Systems develops, produces & operates customized unmanned aerial systems (UAS) to provide excellent surveillance & information collection solutions for military, government and civil applications. |
| 22 | Helmes AS | Ian Nelis ian.nelis@helmes.com 06-07.10.2025 | Helmes specializes in custom software development and consulting, offering tailor-made services in strategy, service design, system integration, software, and mobile app development. |
| 23 | BLRT Grupp AS | Roman Vinartshuk r.vinartshuk@blrt.ee 6-7.X.2025 | BLRT Grupp is a shipbuilding company headquartered in Tallinn, Estonia. In addition to Estonia, the company owns shipyards in Lithuania, Finland and Norway. |
| 24 | Wayren OÜ | Henry Härm henry.harm@wayren.eu 6-7.10.2025 | Wayren is an Estonian technology start-up developing a robust decentralised communications platform for mission-critical markets. |
| 25 | SA CR14 | Carl-Robert Reidolf carl.reidolf@14.ee 6-7.10.2025 | The Estonian cyber innovation centre CR14 helps to conduct the world's largest cyber exercises, helping NATO and various partners to boost their cyber defence capabilities. |

| | | | |
|----|----------------------------|--|---|
| 26 | Tallinna Tehnikaülikool | Henri Schasmin, henri.schasmin@taltech.ee 6-7.10.2026 | Creators of digital innovations, Tallinn University of Technology (TalTech) is leading Estonia and the world towards a sustainable digital future with confidence. As a leader in science, technology, and innovation, the school maintains constant interaction with universities around the world, bringing together scientists, students, and entrepreneurs. |
| 27 | Rantelon | Madis Kuuskmann, madis@rantelon.ee 6-7.10.2025 | Rantelon is a creator, developer and manufacturer of innovative electronic systems. The company focuses on solutions based on electronics, software, mechanics, radio and micro- wave technologies. |
| 28 | Advokaadibüroo WALLESS | Kuldar-Jaan Torokoff kuldar-jaan.torokoff@walless.com 6-7.10.2025 | WALLESS is a Baltic law firm with offices in Vilnius, Riga, Tallinn and Tartu. WALLESS Baltic legal team unites over 150 law professionals with top tier experts as leading partners across all major practices in three Baltic countries. The team provides full scope of specialized region-wide seamless business law services, |
| 29 | ASAX Innovation OÜ | Rivo Kooskora rivo@asaxinnovation.com 6-7.10.2025 | SAX Innovation is a forward-thinking defense industry tech company dedicated to transforming the defense industries through cost-effective and highly adaptable solutions. Specializing in Unmanned Ground Vehicle (UGV) platforms, ASAX Innovation combines cutting-edge engineering with robust design to meet the unique demands of complex environments. |
| 30 | Milrem Robotics | Johan Roseen Johan.Roseen@milrem.com 06.-07.10.25 | Milrem Robotics is the world-leading developer of robotics and autonomous systems and systems integrator, with offices in Estonia, Finland, Sweden, the Netherlands, Poland, the UAE and the US. |

| | | | |
|----|----------------------|---|---|
| | | | |
| 31 | Hevi Optronics OÜ | Kaspar Pöder kaspar.poder@hevioptronics.com 6-7.10.2025 | Hevi Optronics is designing and developing precision-engineered electro-optical sensor systems for commercial and defence applications. We are integrating the latest sensor technologies and video enhancement algorithms into a modular system architecture. |
| 32 | Toci | Jürgen Kuljus jyrgen.kuljus@toci.ee 6-7.10.2025 | Toci is specializing in metalwork and mechanical engineering, offering comprehensive solutions for international markets. With nearly 20 years of experience, including over 10 years of collaboration in the defense sector, our service range includes mechanical engineering, defense industry solutions, special-purpose containers, and vehicle superstructures. |
| 33 | CybExer Technologies | Tomi Helkearo tomi.helkearo@cybexer.com 6.-7.10.2025 | CybExer offers advanced cyber ranges that harness the unique capabilities of digital twin-based testing and training environments. These solutions enable organisations to achieve cyber excellence by honing their skills in a simulated, risk-free setting. |
| 34 | Lendurai OÜ | Jaak Tarien jaak.tarien@lendurai.com 6-7.10.2025 | The flight cell develops autonomous capabilities for unmanned aircraft to perform their missions using machine learning without the use of satellite navigation or radio communications. The company is based in Tallinn and was founded by senior engineers from Bolt and Starship. |
| 35 | Falconers OÜ | Martin Simon martin.simon@falconers.ee 6-7.10.2025 | Falconers is a remote sensing and sensor AI research and development company. At Falconers we digitize the world through remote sensing technologies |

| | | | |
|----|--------------|---|---|
| | | | Our vision is to make a positive impact on the environment by decreasing the computational cost required for sensor dataprocessing, machine learning and AI.” |
| 36 | Cyberbentica | Pille Neider-Kuusalu pille.neider.kuusalu@cyber.ee 6-7.10.2025 | Cybernetica is an ICT research and development company, developer and manufacturer of hardware and software systems, systems integrator and information security competence centre. |
