

Möjligheter för svenska företag att interagera inom EDA CapTech och NATO STO

Ulf Wåhlén, 2018-04-11

EDA R&T – CapTechs

Capability Technology Groups (CapTech)

Capability, Armament & Technology (CAT)						European Synergies and Innovation (ESI)
Information superiority			Intervention & Protection			Innovative research
Communication Information Systems & Networks (Information), FMV	System of Systems, Battle lab and Modelling & Simulation (Simulation), FOI	<i>Cyber Research & Technology WG</i>	Aerial Systems, FMV	Ground Systems, FMV	Naval Systems (Maritime), FMV	Ammunition Technology (AMMO), FMV
						Materials & Structures, FOI
						Technology for Component and Modules (TCM), FMV
						Radio Frequency Sensor Technologies (RADAR), FMV
						Electro-Optical Sensors Technologies (Optronics), FMV
						CBRN-protection and Human Factors (CBRN), FMV
						Guidance, Navigation and Control, FMV
<i>Energy and Environment WG</i>						

Deltagande:

- CapTechs
- Industry Rapporteur
- EDA R&T studies
- Projects (97/15)
- Programs (14/4)

NATO STO – Panels and Group

Panels and the M&S group
Applied Vehicle (AVT), FOI
Human Factors and Medicine (HFM), FMV
Information Systems Technology (IST), FOI
System Analysis and Studies (SAS), FOI
Systems Concepts and Integration (SCI), FMV
Sensors and Electronics Technology (SET), FOI
NATO Modelling and Simulation, FOI
