Combitech has essentially grown up with Sweden's defence and the defence industry with 1,900 employees in Sweden, Norway, Denmark and Finland. Our origins extend right back to 1940s. In other words, we have built up unique experience, knowledge and primarily an understanding of the exacting requirements imposed in terms of technical performance and security. Today we offer an exclusive combination of skill and breadth of knowledge within all segments – Command and Control, Air, Sea and Land.

Combitech influences the properties of a system throughout all the phases of its lifecycle. We participate in feasibility studies and requirement identification. Systems specification and systems development. Manufacturing. Testing and evaluation. Long-term maintenance. Providing expert knowledge at every stage and a thorough understanding of the overall picture, we contribute to optimal solutions for both your business and your projects.

Habia Cable develops, manufactures and markets standard and custom designed cables and harnesses for demanding applications. Our customers are found in the Telecommunications, Nuclear Power Generations, Defense, Offshore and Industrial sectors. In its segment, Habia Cable is today one of Europe's leading wire and cable manufacturers. The company has a global presence and sales in more than 50 countries worldwide. Habia Cable's most important competitive advantages are a high level of service, high technical competence and a global organization.

Knowit AB (publ) is a consultancy firm which, within the ever swifter digitalization, creates unique client value by offering interdisciplinary deliveries from three business fields: Solutions, Experience and Insight. It is the capacity to combine competencies within IT, design and communication and management consultancy that sets us apart from other consultancy firms.

Knowit Dataunit AB, a subsidiary to Knowit AB, is specialized in the defence and security area and has been delivering communication systems to the Swedish Armed Forces since the beginning of 1990's. Knowit Dataunit has a deep knowledge of interoperability, international C2 and C4I-systems and we delivers cost-efficient and flexible solutions tailored for the customer.

For more than 25 years **NATEK** has been leading the way, providing innovative and versatile power supply solutions to defence forces throughout Scandinavia. Deploying these chargers in the Arctic regions, they have been designed and built to withstand the most extreme weather conditions on Earth.

And as technology quickly advances towards a dependency on digital devices, NATEK is perfectly positioned to step in and produce the adaptable power conversion demanded. Militaries will be battlefield-ready utilizing charging units that are compact, rugged and powerful enough to deploy in any scenario. Harvesting the energy wherever it can be retrieved, converting it reliable and intelligently into stored energy.

No more dependencies based on chemistries, size or manufacturer. Adapted to conform to your needs not the other way around. This is what NATEK stands for.

Scania is a world-leading provider of transport solutions, including trucks and buses for heavy transport applications combined with an extensive product-related service offering. Scania is also a leading provider of industrial and marine engines. Employing 49,300 people, the company operates in about 100 countries.

Scania have over 100 years' experience of delivering reliable solutions for peacekeeping and defence work on land and sea.

Scania's modular system, with a selection of standardised components, enables Scania to deliver tailor-made defence vehicles as well as larger volumes of standardised vehicles.

Scania's ILS solutions offer global service networks, spare parts commonality and long-term supply in order to secure vehicle availability.

Spuhr i Dalby AB is a Swedish design and manufacturing company. The company revolutionized the scope mount with the Ideal Scope Mount System in 2009. Spuhr has continued to make their name as a trusted partner for law enforcement and military customers, delivering advanced field-ready products, such as scope mount systems, grenade launcher sight mounts, NVG carry systems, and weapon upgrade kits.

Spuhr design solutions are renowned for being highly innovative, light-weight, and soldier proof – epitomizing the KISS principle. Visit www.spuhr.biz to learn more.
